

Beginning on October 10, 2025  
redesigned Biological Waste boxes will  
be distributed.

The new boxes contain a pre-printed Biological  
Waste label on the box.

The waste label should be completed prior to  
unfolding and configuring the box.

The waste label must include:  
Name, Building, Room Number, Phone Number,  
and Date.

For old boxes which do not contain the pre-  
printed label, a Biological Waste label must be  
completed and affixed to the box.
